Weak and Sid to 5 cents lower were the rolling quotations for the several hog markets yesterday, but this market was quoted as strong on good hogs and steady on all others. The tops were extra fine quality hoge and the remainder of the offered hogs was just ordinary in the main, with a few cars of better grade stock. It was not a busy or active day In the bog division, although all the severs! buyers were on hand to take in all different kinds; but without rethe good hogs offered. The demand was lief till I used Konol Dyspersia good, but the supply was very light. The CURE. I had almost given up receipts were more than 1.000 short of Monday of last week. The local and wagon supply was very small and there were only nine cars unloaded. Evarything was suitching absorbed and the hog pens left supply at the close.

A rally toward the close was the result of the exhaustion of offerings and the return to the buying side of the elevator people who ran the price up last week.
